

To whom it may concern,

I, Raphael Paiva de Oliveira, Manager Partner at Ozeias Estofados, write this letter to attest that Pedro Henrique Delpupo Mauri provided marketing consultancy services through Upsigns Digital Communication for Ozeias Estofados. The service was provided between June 25, 2020 and October 10, 2020, and included the development of a complete visual identity of Ozeias Estofados, including:

- Creation of advertising campaigns for events and promotions
- Conception of company presentation materials and communication with the public
- Development of art and design for business cards and digital cards (e-cards)
- Creation of specific advertising material for OOH (Out of Home), such as billboards and bus ads

During the service, I remained in direct contact with Pedro through in-person and remote meetings to achieve the results obtained, and I always received the necessary support and confidence in the work provided by Upsigns to execute the project.

I am available to clarify any doubts through the communication channels that follow.
